Image upload in php pdo with database | php upload image to folder | php code for image upload and display

Labels

Tutorials

Step :1

Create Folder "uploads" where your all project files located

Step :2

Create Db Of Name "Imageupload"

After that you need to create table:

```
CREATE TABLE `users` (
`id` INT( 5 ) NOT NULL AUTO_IN
`image` VARCHAR( 25 ) NOT NULL
)
```

Step : 3

Create Connection File Name Write As "Connect.Php"

```
<?php

try{
$con = new PDO ("mysql:host=lo
$con->setAttribute(PDO::ATTR_E
echo "connected";
}
```

```
catch(PDOException $e)
{
echo "error:".$e->getMessage()
}

?>
```

Step : 4

Create Index.Php File

```php
<?php

include "connect.php";

if(isset($_POST['ok']))

{

$folder ="uploads/";

$image =
$_FILES['image']
['name'];

$path = $folder . $image
;

$target_file=$folder.
basename($_FILES["ima
ge"]["name"]);
```

```php
  $imageFileType=pathinfo($target_file,PATHINFO_EXTENSION);

$allowed=array('jpeg','png' ,'jpg');
$filename=$_FILES['image']['name'];

$ext=pathinfo($filename,
PATHINFO_EXTENSION);
if(!in_array($ext,$allowed) )

{

  echo "Sorry, only JPG, JPEG, PNG & GIF files are allowed.";

}

else{

move_uploaded_file($_FILES['image']['tmp_name'], $path);

$sth=$con->prepare("insert into users(image)values(:image) ");

$sth->bindParam(':image',$image);

$sth->execute();

}
```

```
        }

        ?>

        <form method="POST"
        enctype="multipart/fo
        rm-data">

        <input type="file"
        name="image" />

        <input type="submit"
        name="ok"/>

        </form>

        <a href="select.php">See
        Image</a>
```

Step : 5

Create Select.Php File

```
        <table border="2">
        <tr>
        <th>ID</th>
        <th>Image</th>
        </tr>
        <?php
        include "connect.php";
```

```
$select = $con->prepare("SELEC
$select->setFetchMode(PDO::FET
$select->execute();
while($data=$select->fetch()){
?><tr>
<td><?php echo $data['id']; ?>
<td><img src="uploads/<?php ec
<?php
}?>
</tr></table>
<a href="index.php">Add new im
```
